## **Cinderella Cleanliness Scale**

On the scale of 1 through 10, how dirty is your home?

Circle one or more below.

1 being Disney Princess clean and 10 being Shrek's Swamp:

1. You are an actual Disney Princess. Birds chirp and sing around you while you fold your laundry
2. You polish your glass slippers regularly
3. Cinderella has nothing on you...you clean on a weekly basis, but are sick of doing it on your own.
4. You are tidy and clean on a surface level; you need a good top to bottom clean of your home.
5. Your vacuum is gathering dust. You like a clean home but have been slacking for too long and don't know where to start. Extra elbow grease needed!
6. You have a vacuum but haven't seen it in a while...it's under some laundry somewhere. Cleaning is a dirty word in your house.
7. Your shower glass looks frosted, your dust bunnies are multiplying.
8. You just received an email from your friend Shrek, he needs a place to stay for a while and feels at home at your place. It has the same swampy feel he loves
9. You just saw a picture from when you moved in, your backsplash is white?! It's been so long since you've seen it clean you forgot. You need all the elbow grease to get you back on track
10. Shrek, Fiona and their family have made themselves at home at your place. Like the say... your swamp is their swamp!
